

heavy duty pedestals

The range of Heavy Duty Pedestals suits all of the desking ranges. They have strong drawers with metal sides, a 12mm thick base board, integral runners and full anti-tilt. The drawer fronts include an attractive fluting to the side finger pulls and an optional handle is offered if preferred. A pen tray is also available as optional extra.

All of the Heavy Duty Pedestals are offered in maple, light beech, light oak, walnut, silver and off-white with square edge tops. In addition, the maple and light beech desk high pedestals can be given a post-formed edge profile and the silver and off-white can be fitted with tops in any of the wood finishes and their edge profiles.

The silver and off-white pedestals also have a square cut profile to the side of the drawer fronts instead of the fluted finger pulls so consideration needs to be given to specifying the optional handle.

specification

- 18mm thick.
- 25mm thick tops on the desk high pedestals.
- Particleboard specification matches the desking.
- Drawers with threequarters-height four sided metal sides construction with 12mm thick base board.
- Filing drawers set up with a filing frame for A4 filing suspended from side-to-side & foolscap & A4 filing from front to back.
- Optional pen tray.
- Integral runners with nylon roller.
- Anti-tilt mechanism to prevent more than one drawer opening at a time.
- Plant-on drawer fronts.
- Fluted side finger pulls (square cut on tower pedestals and all pedestals in silver and off-white - require strap-shaped handle below).
- Optional strap-shaped handles (Screwed on by punching through the blind holes pre-drilled in the backs of the drawer fronts).
- Lock.
- Two keys and a collapsible fob.
- Replacement and master keys available.
- Desk high 600mm deep suitable for acting as a support pedestal to support the 600mm end of a support workstation.

finishes

Choice of the following plus tops in the wooden finishes on silver and off white carcasses:

Maple	M
Light beech	BQ
Light oak	LO
Walnut	WN
Silver	S
Off-white	WW

Note that the post-formed edge is offered on the desk high pedestals in light beech and maple only.

shapes & sizes

systems pedestals

A full programme of Systems Pedestals complements the desking.

They feature systems drawers formed from a single sheet of steel with encased ball-bearing runners and an anti-tilt mechanism. The drawer fronts have a stylish fluting to the side finger pulls. A further possible enhancement is an optional handle. The top drawer includes a pen tray and drawer dividers are offered as an option.

Apart from the choice of the four wooden finishes and their edge profiles, the systems pedestals are offered in silver and off-white and in both silver and off-white with tops in the wooden finishes and appropriate edge profiles. However, note that the sides of the drawer fronts are square cut instead of fluted on the silver and off-white systems pedestals in which event use should be made of the optional handle listed in the accessories section.

specification

- 18mm thick.
- 25mm thick tops on the desk high pedestals.
- Particleboard specification matches the desking.
- Drawers with single sheet full-height four sided steel systems construction folded up and welded in the four corners.
- Filing drawers set up for A4 filing suspended from side-to-side and foolscap and A4 filing from front-to-back.
- Box drawers slotted for optional drawer dividers.
- Pen tray included in top box drawer
- Encased ball bearing runners.
- Anti-tilt mechanism.
- Anti-tilt skid.
- Plant-on drawer fronts.
- Fluted side finger pulls (square cut on tower pedestals and all pedestals in silver and off-white - require strap-shaped handle below).
- Optional strap-shaped handles (Screwed on by punching through the blind holes pre-drilled in the backs of the drawer fronts).
- Lock.
- Two keys and a collapsible fob.
- Replacement and master keys available.
- Desk high 600mm deep suitable for acting as a support pedestal to support the 600mm end of a support workstation.

finishes

Choice of the following plus tops in the wooden finishes on silver and off white carcasses:

Maple	M
Light beech	BQ
Light oak	LO
Walnut	WN
Silver	S
Off-white	WW

Note that the post-formed edge is offered on the desk high pedestals in light beech and maple only.

steel systems pedestals

A striking aesthetic and a high degree of functionality are also offered by Steel Systems Pedestals.

The distinctive design is imparted by the recessed scallop of the finger pull across the top of the drawer fronts. The drawers have a slotted systems drawer construction and encased ball-bearing runners with the base of the filing drawer fitted with an anti-tilt glide or, on the mobiles, a castor. The drawers also include a pen tray and a drawer divider.

The pedestals are silver in colour to match the metalwork of the desking. The desk high version requires a top of your choice to be ordered separately.

specification

- Sheet steel.
- Specification of particleboard top on desk high pedestals matches the desking.
- Drawers with single sheet full-height three sided steel systems construction folded up and welded in the two rear corners with the drawer front bolted on.
- Filing drawers set up with a filing frame for A4 filing suspended from side-to-side and foolscap and A4 filing from front-to-back.
- Box drawers slotted for optional drawer dividers.
- Pen tray included in top box drawer.
- Encased ball bearing runners.
- Anti-tilt glide or castor.
- Bolted-on drawer fronts.
- Recessed scallop shaped finger pull.
- Centrally positioned lock.
- Two keys.

finishes

Silver and, in the case of the steel desk high pedestals, the following tops:

Maple	M
Light beech	BQ
Light oak	LO
Walnut	WN
Silver	S
Off-white	WW

Note that the post-formed edge is offered on the desk high pedestals in light beech and maple only.

shapes & sizes

See price list for standard shapes and sizes. Specials are available on request.

standard storage

All of the desking and tables can be set-off to good advantage by the cost-driven programme of Standard Storage.

The inside face of the gable ends are pre-drilled for clipping in wooden and steel shelves and for screwing in suspension filing frames. In addition, lateral filing rails and a wardrobe rail are offered for fitting to a wooden shelf.

The drawers of the filing cabinets and side filers have a foil wrapped construction.

Standard Storage is offered in the full range of finishes and edge profiles. In addition, silver and off-white units can be fitted with tops in any of the wooden finishes and their edge profiles.

specification

- 25mm thick tops.
- 18mm thick backs.
- Particleboard specification matches the desking.
- Plinth or a base panel supplied with wedges to assist in leveling.
- Pre-drilled for a range of internals.
- Supplied empty except for shelves in desk high and bookcases.
- Side opening tambours are ribbed slats and cloth mounted.
- Drawers with full height four-sided foil wrapped particleboard construction with stapled plyboard base (drawer base designed for suspension filing only), steel runners with nylon roller and anti-tilt mechanism.
- Lock.
- Two keys and a collapsible fob.
- Replacement and master keys available.
- Desk high suitable for acting as a support unit to support the 600mm end of a support workstation.

finishes

Choice of the following plus tops in the wooden finishes on silver and off white carcasses:

Maple	M
Light beech	BQ
Light oak	LO
Walnut	WN
Silver	S
Off-white	WW

Note that the post-formed edge is offered on the desk high units in light beech and maple only

systems storage

The Systems range provides a stylish and flexible solution to office filing and storage.

The hinged door and side opening tambour storage units incorporate ladder-racking for clipping in a comprehensive range of shelving and internals. The drawers in the filing cabinets and side filers are constructed from a single sheet of steel with full height sides and feature encased ball-bearing runners and strap-shaped handles.

The full range is available in maple, light beech, light oak, walnut, silver and off-white with square edge tops and, in the case of the desk high units, in maple and light beech with a post-formed edge profile. The silver and off-white can be fitted with tops in any of the wood finishes and their respective edge profiles.

specification

- 25mm thick tops.
- 18mm thick backs.
- Particleboard specification matches the desking.
- Plinth with height levelers or a base panel supplied with wedges to assist in leveling on site.
- Incorporates ladder racking for a fully comprehensive range of internals.
- Supplied empty except for shelves in desk high and bookcases.
- Side opening tambours are flat interlocking slats.
- Drawers with single sheet full height four-sided steel systems construction, encased ball bearing runners and anti-tilt mechanism.
- Lock.
- Two keys and a collapsible fob.
- Replacement and master keys.
- Desk high suitable for acting as a support pedestal to support the 600mm end of a support workstation.

finishes

Choice of the following plus tops in the wooden finishes on silver and off white carcasses:

Maple	M
Light beech	BQ
Light oak	LO
Walnut	WN
Silver	S
Off-white	WW

Note that the post-formed edge is offered on the desk high units in light beech and maple only

steel systems storage

Steel Systems Storage is an attractive and contemporary alternative to an all wood look. The range ensures full versatility and functionality.

The steel hinged door and side opening tambour storage units are fitted out internally with ladder-racking for a wide selection of internals. The drawers in the filing cabinets and side filers are constructed from a single sheet of steel with full height sides and encased ball-bearing runners. A two drawer side filer is available with a distinctive recessed scallop across the top of the drawer fronts to match the design of our steel pedestals.

All the steel systems storage is in a silver finish to match the metalwork of the desking. The desk high units require a top of your choice to be ordered separately.

specification

- Sheet steel.
- Specification of optional particleboard tops matches the desking.
- Plinth with height levelers.
- Incorporates ladder racking for a fully comprehensive range of internals.
- Supplied empty.
- Side opening tambours are flat interlocking slats.
- Drawers with single sheet full height three-sided steel systems construction, encased ball bearing runners and anti-tilt mechanism.
- Lock.
- Two keys and, in the case of the storage units, a collapsible fob.
- Replacement and master keys.

finishes

Silver and if required the following tops:

Maple	M
Light beech	BQ
Light oak	LO
Walnut	WN
Silver	S
Off-white	WW

Note that the post-formed edge is offered on the desk high units in light beech and maple only
